ROPE LIGHT SERIES

LED Ropelight is a 240V application with a 360 degree beam angle. It is primarily used as a decorative lighting fixture, featuring small LED's linked together and encased in a PVC jacket to create a line of light. LED Ropelight can be used in many applications both indoors and outdoors.

LED Ropelight will last 10 - 15 years, the LED's have a 100,000 hour lifespan and the PVC jacket has a UV protectant to protect it from the strong New Zealand sun. LED Ropelight is New Zealand Safety Approved and plugs straight into the house plug 240V. It comes in 2wire for steady burn or 3-wire (chasing). Available in any length up to 100 Metres, however it has cut lengths of at least 1m, and must be cut on the marked scissor point.

ROPE TWO

13mm diameter 2 wire Rope with vertical leds. Steady burn 240v, 36 Bulbs per metre.
Available in: Cool White, Warm White, Red, Blue, Green, Purple, Orange, Pink, Yellow & Multi coloured.
